PROFILE

Frontend Developer skilled in Angular, React, and Next.js, specializing in crafting responsive, dynamic, and user-focused web applications. Proficient in TypeScript, JavaScript, Redux, HTML, CSS, and Tailwind CSS, with a strong ability to develop scalable, high-performance solutions that meet industry standards. Experienced in collaborating with cross-functional teams using Agile methodologies to deliver maintainable, high-quality software. Committed to writing clean, efficient code and staying current with modern web technologies and best practices to drive innovation and enhance user experiences.

EXPERIENCE

Frontend Developer

📅 Nov 2024 - Jan 2025

Ladder Tech Platform | Nigeria

Frontend Intern (Next.js, React, Redux, HTML, CSS, TypeScript, JavaScript)

- Developed responsive and high-performance web applications using Next.js, React, Redux, and Tailwind CSS, ensuring full cross-browser compatibility and adherence to modern web standards.
- Leveraged Next.js features such as server-side rendering (SSR), static site generation (SSG), dynamic routing, and API routes to enhance performance, SEO, and backend integration.
- Built reusable and modular components to maintain a clean and scalable codebase.
- Implemented Redux for predictable and centralized application state management.
- Collaborated closely with my mentor using **Git, pull requests, and Agile methodologies**, contributing to planning, development, and code reviews.

Frontend Developer

📅 Jul 2024 - Present

PAC 8 | Lagos, Nigeria

Frontend Developer (React, TypeScript, Redux Toolkit, Context API, Routing, Authentication)

Developed and enhanced an e-commerce platform with features like state management, secure authentication, and efficient navigation. Utilized modern React tools and techniques to deliver a seamless shopping experience.

- Designed and implemented dynamic, reusable components to build a scalable user interface.
- Leveraged Redux Toolkit and Context API for centralized and efficient state management.
- Integrated client-side routing for smooth navigation between product pages and user-specific dashboards.
- Implemented authentication workflows, including user registration and secure login/logout mechanisms.
- Worked with RESTful APIs to retrieve and display product data in real-time, ensuring fast and responsive updates.
- Followed version control practices using Git and collaborated effectively with the team to meet project milestones.

Frontend Developer

📅 Jul 2023 - Jun 2024

Bureau of Information Technology (BIT), Ogun Tech-Hub; Abeokuta, Nigeria | Abeokuta, Nigeria

FrontEnd Developer (Angular, Typescript,)

- Developed and maintained user-facing websites using HTML, CSS, JavaScript and Angular(Typescript)
- Developed a responsive website that is optimized for both desktop and mobile devices, increasing user engagement
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
- Contributed to the digital transformation of Ogun State's land administration with the launch of OLARMS, transforming paper-based processes into a streamlined platform that improved record tracking and accountability of land process for 1M+ residents.
- Worked with a team of 3 developers to pitch an agricultural solution bridging the farmer-to-consumer gap at the Ogun Hack Hackathon in partnership with German GIZ-Sedin.
- Contributed to the optimization of existing frontend codebase for performance and UX, resulting in a 30% increase in user engagement and a 20% faster load time.

Frontend Developer

Jan 2022 - Sep 2023

Centriq

Frontend Developer (Angular, TypeScript, Redux)

- Developed a smart hotel management system using Angular, TypeScript, Redux, and Tailwind CSS, creating responsive, user-friendly interfaces with real-time communication features like messaging and notifications to optimize guest-staff interactions.
- Implemented response-feedback mechanisms via dynamic forms and surveys, leveraging Redux for efficient state management across components.
- Established data pipelines and RESTful API integrations to support future AI-driven analytics for operational insights.
- Collaborated with cross-functional teams using Git and Agile methodologies, ensuring cross-browser compatibility and timely delivery of a scalable, industry-compliant application.

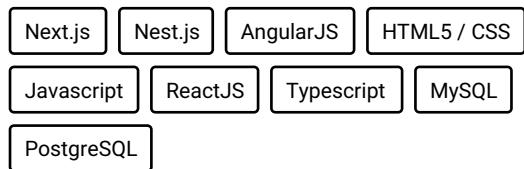

EDUCATION

Bachelor of Science, Physics

2022

Lagos State University, Lagos, Nigeria | Nigeria

SKILLS

LANGUAGES

English Fluent

OTHER SKILLS & CERTIFICATIONS

CERTIFICATION

Udemy - Angular Certification of Completion
